## EDUCATION

### Bachelor Of Technology

IIT Gandhinagar: 2020-2024

### CLASS 12

Maa Bharati School Kota: 2019-2020

## SKILLS

Javascript

React

Node.js

Express

MongodB atlas, Mongoose ODM, Sql, MySQL

Css, TailwindCSS, SASS, Bootstrap

Programming languages: C++, Python, Javascript

### Achievements

Secured All India Rank under 2500 amongst 1 Million+ participants in JEE main 2020

Secured All India Rank under 3700 amongst over 100k+ participants in JEE advanced 2020

## PROFILE

Hello! I'm Nitin Kakraliya, a recent graduate with a degree in Computer Science and Engineering from IIT Gandhinagar. I am an Enthusiastic and driven aspiring full-stack developer with a strong foundation in **data structures, algorithms, databases, ML fundamentals, and computer networks**. Eager to apply skills in real-world scenarios and passionate about backend and frontend technologies.

## PROJECTS

### Full-stack Jobs app

- Developed a full-stack application for job creation, display, editing, and deletion.
- Implemented user authentication and authorization using **JWT tokens**.
- Built the frontend with **React and Axios** for handling user requests.
- Created the backend API with **MongoDB Atlas, Mongoose ODM, Node.js, and Express**.

### Chat app

- Created a chat web application with seamless user communication.
- Implemented the frontend with **React, SASS** for styling, **Context API** for global state management, and **React Router** for navigation.
- Utilized **Firestore** for database storage and **Firebase** methods for authentication and file uploads

### Other Projects/Profile:

- Please visit the Github/portfolio website to visit all the projects
- Keen interest in Data Structures problems with various problems solved over leetcode and GFG.
- solved over **500 problems on GFG with 1700+ points**
